Summary

Front-end developer with 1+ year of hands-on experience building responsive and interactive web interfaces using HTML, CSS, Bootstrap, and JavaScript.
Completed a specialized front-end development course at Route Academy, with practical training in responsive design, React, and modern UI frameworks.

Professional Experience

- **Intern - Freelance projects**   jan-mar 2025

  - Worked as a freelance front-end developer using React and JavaScript, building responsive UIs with Bootstrap and Tailwind CSS.

Volunteering Experience

- **Front-End Developer** – *Freelance Projects for NGOs*   Remote | Jan 2025 – Apr 2025
  - Developed responsive websites for two local NGOs using HTML, CSS, JavaScript, and React.
  - Collaborated with backend developers and UI/UX designers to implement user-friendly interfaces.
  - Optimized performance and accessibility for different screen sizes.
  - Delivered projects on time, helping clients establish their digital presence.

Education

- **Bachelor of Civil Engineering**   2020-2025
  Cumulative GPA (up to Level 4): Excellent – 86% (above 3)

Courses

- **Front-End Development Course**   Feb – Aug 2025

  ○ Route Academy – Alexandria Branch | On-site
    - Hands-on training in front-end development using HTML, CSS, JavaScript, Bootstrap, Tailwind, and React
    - Participated in team-based projects and received professional code reviews.
    - Built responsive, real-world web interfaces based on client-style requirements.

Projects

- **[E-commerce](#)** : I developed a fully responsive and feature-rich e-commerce website using React, designed to provide a seamless shopping experience. The website includes a user-friendly interface.
  - •**Product Management**: Dynamic product listing and detailed product pages, powered by React components, ensuring smooth navigation and quick load times.
  - •**Shopping Cart**: An intuitive shopping cart that allows users to add, update, or remove items, with real-time price calculations and a persistent cart state using local storage.

- [IPHONE MODEL](#) : I developed an interactive and creative website showcasing an iPhone model, built using React and a powerful animation library (GSAP & Three js).
  - •**3D Model Integration**: A detailed and interactive 3D model of the iPhone, allowing users to rotate, zoom, and explore the device from different angles with smooth transitions.
  - •**Advanced Animations**: Leveraged [Framer Motion/GSAP] to create fluid animations and transitions, enhancing the site's interactivity and visual appeal. These animations include device rotations, screen changes, and dynamic elements that respond to user actions.

- [Daniels Portfolio](#): A responsive personal portfolio website built with HTML, CSS, and JavaScript. It showcases projects, contact information, and a clean UI with smooth scrolling and interactive sections. Deployed using Vercel for fast and reliable performance.

Technical and Personal Skills

- HTML5, CSS3, JavaScript (ES6+)
- React.js, JSX, Component-Based Design
- Bootstrap, Tailwind CSS
- Git & GitHub (Version Control)

- Responsive Web Design & Mobile First Approach
- API Integration & JSON Handling
- DOM Manipulation
- Basic knowledge of RESTful APIs
